

“Hey, it’s Ariela. Be a proud and responsible Dominican and wear your mask! I wear mine to keep my kids, my family and friends safe. Don’t let your guard down and wear your mask snugly over your nose, mouth, and chin.”

Correctly wearing masks snugly over your nose, mouth, and chin maximizes your protection and prevents spreading the COVID-19 virus and its variants to others.

PODER en SALUD is a national project of PROCEED, Inc., that is 100% supported under BBHLCC To Respond To COVID-19 which is supported by the Centers for Disease Control and Prevention (CDC) of the U.S. Department of Health and Human Services (HHS) under CDC/HHS as part of a financial assistance award totaling \$2,300,000 with 100% funded by CDC/HHS. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement by, CDC/HHS, or the U.S. Government.

“Hi my name is Bethel, I’m 19 years old and fully vaccinated. I am vaccinated because I live with my Abuelita and don’t want to bring COVID-19 into the house.”

According to the CDC, COVID-19 vaccines are highly effective at preventing severe illness, hospitalizations, and death.

“Norbin here, you have to do this thing with me and wear your masks. We have to stay strong so we can grow the VI to be a better place. COVID-19 is still about, so DO the right thing please – wear your mask and get vaccinated and boosted when eligible– it can help stop the spread of COVID-19!”

The CDC continues to recommend getting vaccinated against COVID-19 as well as wearing a mask snugly over your nose, mouth and chin when in public, washing your hands regularly, and socially distancing to protect yourself and others from getting sick.

“Hello, I am Samuel Carrion. I got vaccinated against COVID-19 because it was the right decision to keep me and my family safe. I want to encourage you to do the same. It’s up to us to lower and prevent COVID-19 cases. We can only do this by wearing our masks, getting vaccinated and boosted when eligible.”

The COVID-19 vaccines were developed with technology that existed long before the COVID-19 pandemic began. COVID-19 vaccines are effective and safe for everyone 5 years and older, including older adults, children, pregnant women, and people with compromised immune systems.
